August 27, 2004

ISIS Memorandum 05-008

To: All ISIS Users

Subject: New OIS Website

The old OSIS website has been replaced by a new, restructured OIS website. All of the information related to ISIS systems and OIS support functions has been incorporated in the new site.

The new web address is <http://www.doa.la.gov/ois/index.htm>. OIS has redesigned its pages in keeping with the format used for Louisiana.gov and restructured the site to provide easier access. We hope that these changes will make information easier to find and use.

When you access the new OIS home page, you will find a menu bar located down the left side of each screen. This bar lists all of the major selections available and includes items related to ISIS forms, training, publications, bulletin boards, OIS support functions, and links to other important sites. In the center you will find links to the ISIS systems pages and the 'What's New' announcement section. On the right side you will find 'Featured Services' including links to special items such as LEO, the ISIS calendar and the application to request ISIS security.

The OIS website is updated on a daily basis and is your best source for the most current ISIS information. For easy access, please replace any existing bookmarks with new ones linking to the OIS site. As always, we are very interested in hearing your comments about the site and any suggestions you may have. Please feel free to click on 'OIS Webmaster' at the bottom of any page and tell us how we can improve the site.

PG/ef

c. Whit Kling, Deputy Undersecretary
